The Speakers

Professor Paul Rodhouse DSc is a biological oceanographer at the British Antarctic Survey. He has been a member of the Board and Head of the Biological Sciences Division at BAS and was recently the Board Member for Science Resource. He is the Principal Scientist for the South Georgia Government's Fisheries Laboratory at King Edward Point.

Dr David M. Wilson PhD (Essex), FZS, boasts numerous explorers and ornithologists on his family tree, not least amongst these is his great uncle, Dr. Edward Wilson, who died with Captain Scott and his party on their return from the South Pole in 1912. David spends much of his time working to promote our historic Antarctic heritage.

The Hon Alexandra Shackleton, grand daughter of Ernest Shackleton, looks after her grandfather's legacy as well as the great man himself looked after his men. Life President of the James Caird Society, which was founded to honour Shackleton and provide information about his Expeditions, she has been instrumental in furthering Shackleton historical research.

Meredith Hooper is a lecturer, historian, Antarctic expert and full-time writer of non-fiction and fiction for children and adults. In 1994 she was selected by The Australian Antarctic Division to visit Antarctica as a writer, and in 1998–1999 and 2001–2002 was selected by the US National Science Foundation to visit Antarctica as a writer on their Antarctica Artists Writers Program.

Bryan Oates, Capt Oates's great nephew, recently presented the museum with some important items from his family's archives, which have been added to the new Oates Gallery. His great uncle had a significant impact on Bryan and he recounts fascinating stories about his life, his family and its history.

Major General Patrick Cordingley DSO DSc FRGS. With a distinguished military career, Patrick Cordingley is best known for commanding the 7th Armoured Brigade – the Desert Rats – during the first Gulf War. An authority on Captain Lawrence Oates, he has written a best selling book about his life.
